Testimonial

"Having read and much enjoyed Elaine Cougler's Loyalist series and the Terry Fox/Ron Calhoun account, I was naturally very keen on reading her new book *My Story, My Song* and was not disappointed.

Elaine brings the times of 1950s and '60s Canada wonderfully to life; I was completely enthralled. For those of us who lived in those times, the book is a nostalgic rendezvous—a peaceful life in small communities and big families, safe and secure. For the younger generation it must sound like Utopia.

Delve into this book, let yourself be transported back to those times and look back with awe and interest. Enjoy the journey—you will be glad for it!

The photographs are an extra touch, enhancing the joy of reading."
